### POSITION DESCRIPTION:

- Responsible for designing and drafting computer-aided design (CAD) drawings using AutoCAD and Revit software applications.
- Responsible for meeting all project specifications and formatting to company standards and following all project schedules and due dates.
- Coordinate and collaborate with the BIM manager, Engineers, and Project Engineers to ensure that the design is accurate and that contract responsibilities are met.
- Layout and modify drawings and recommend changes based on their experience and knowledge of the project.
- Review and interpret client specifications, as well as help improve and maintain current quality assurance processes.
- Responsible for the maintenance of the CAD drawing library as necessary.
- Conduct job site/field observations or inspections as necessary.

### QUALIFICATIONS:

- 2 year Technical Degree or A.A. Degree in Computer Assisted Design; Architectural and/or Building System Design.
- 1 - 2 years of experience working with Building System Design.
- Experience with AutoCAD is required; Revit is highly preferred.
- Ability to communicate clearly and concisely, both orally and in writing.
- Ability to meet project deadlines and provide outstanding service to clients.
- Ability to plan, organize and prioritize multiple projects.
- Ability to work in and foster a team environment with minimal supervision.
