POSITION DESCRIPTION:

- Provide input on processes from a quality perspective, and aid in implementing new processes.
- Monitor, track, and document the cross-training and training matrix.
- Coordinate, provide, and follow up training for employees following the company's training process.
- Actively coach the organization concerning training effectiveness with tools and reports.
- Use a hands-on approach to maintain a LEAN culture within the organization.
- Support the Trainer Supervisor and Quality Manager in maintaining quality systems.
- Support and implement safety training and programs.
- Generate, interpret, analyze, and communicate results using management tools, graphs, and reports.
- Coordinate training activities for new hires, including cross-training and training as a result of corrective actions.
- Coordinate and conduct training in the training cell and hands-on live environment, including documentation required for conducting and recording the training.
- Maintain the training cell environment, including recommending improvements and organizing training based on 5S principles.
- Perform other related duties as assigned.

QUALIFICATIONS:

- High school diploma required; college degree preferred.
- 3-5 years of work experience in a returns or logistics environment, working in a quality or training capacity.
- Able to work with frequent distractions.
- Excellent trainer, administrative, and organizational skills.
- Proficiency on computers and Microsoft Office products.
- Above average interpersonal, organizational, and communication skills, both written and oral, to handle a wide range of internal and external customers at all levels.
- Ability to communicate and work with company team members.
- Strong analytical skills and technical savvy.
- Able to perform repetitive duties and detail work accurately.
